Founders' Day Message

Believe in Yourself

Believe in Delta Chi

Our Founders believed "... that great advantages are to be derived from a brotherhood of college and university men ..."

We might wonder if they were prophetic or men of extraordinary vision, and if they dreamed that this humble belief would have such lasting effect on the lives of so many.

Today, the technology of the eighties has vastly eclipsed the technology of the previous twenty-five years, while the volume of information published and knowledge gains of the same period defy imagination. We live in an era that confronts us with change at such a rapid pace it seems constant. At a recent Delta Chi Educational Foundation strategic planning session we gained insight into the concept of paradigms — rules we take for granted, our most basic assumptions about how we live and work. Paradigms can help us to evaluate and organize new information quickly. Unfortunately, they can also prevent us from seeing things in a new way and thus hamper our ability to adapt. The truth is that rapid change, and the avalanche of information that confronts us daily, continually challenges our beliefs and basic values. We often wonder if we can truly make a difference in such a rapidly changing world.

My grandfather once told me, "Never get involved in anything you do not believe in, but for the things you do, get involved and strive to make them better." We are involved in Delta Chi. Our Founders' appreciation that close association may promote friendship, develop character, advance justice, and assist in the acquisition of a sound education has never held more meaning. Delta Chi has made a difference in our lives and the lives of those around us. We are better students, community citizens, leaders, public servants, and friends because of Delta Chi.

Some personal beliefs that I have gained from Delta Chi are:

- That the only barriers to believing in our dreams are the barriers that exist in our own minds.
- We need to inspire each other to dream freely and assist in realizing the potential that lies within each of us.

Michael Carroll
1992-94 "AA"

- That brotherhood must cultivate self-confidence, build self-esteem, and enhance communication skills; all of which are essential for leadership.
- We need to provide recognition for accomplishments and inspiration to overcome our failings.
- We need to extend a helping hand and exercise understanding and compassion in all of our relationships.
- That diversity is an essential and healthy element of today's society.
- That values and ethics are basic elements of justice.
- Through brotherhood we can strive to become better individuals.

What our Founders believed one hundred-and-two years ago, is alive and well in over 5,000 undergraduates and approximately 50,000 living alumni. Their belief and dream have touched the lives of over sixty-six thousand men. They have committed Delta Chi to our care and what she becomes in her second hundred years is up to you, me, and the men to whom we pass the torch. The recent 48th International Convention in Irvine was an exhilarating and inspiring experience that touched our hearts with emotion and gratitude. We have witnessed a paradigm shift (change in attitude) in the way fraternity is viewed. Responsibility and purpose are becoming a number-one priority, and fun and good times are still a vital part of the fraternal experience.

Take a moment to reflect on what you believe most about Delta Chi, and how Delta Chi has affected your beliefs in general. Share your beliefs with your brothers and make a personal commitment to an even better Delta Chi. A former U.S. President recently stated, "We derive inspiration from our past, but we live for the future." May the future be grand and glorious for you and our beloved fraternity.

Convention Review

By **Steve Bossart**

The California sunshine and nearby attractions provided a wonderful backdrop as almost 500 members and guests gathered in Irvine for the 48th International Convention. All but 20 undergraduate chapters and colonies were represented. As early as Monday, delegates began to arrive while the Board of Regents held its annual meeting and Fraternity staff made last minute arrangements. By the time members from all over North America gathered poolside on Wednesday evening for tacos at the Welcome Reception, most of the attendees had arrived at the hotel, and an air of anticipation filled the air.

Thursday, August 6

The Convention was called to order at 8:30 a.m. in the ballroom of the Hyatt Regency-Irvine by "AA" **Gregory F. Hauser**. Those in attendance sang "Fovens Mater" and a moment of silence was held to recognize brothers who have passed on. The business of the Fraternity was then introduced, discussed and carried out. It was also during this session that candidates for international office each gave a ten-minute speech.

The Educational Foundation luncheon was held at 11:45 a.m. in the ballroom where Convention attendees heard one of the Foundation Speech Contest winners, **Channing Nuss** of the Kansas Chapter, speak on ethical leadership. All the individual awards (Valor, Meritorious Service and Distinguished Delta Chi, Outstanding "BB", "C" and "E" Key) and Foundation Awards were presented.

Regional caucuses provided an opportunity for delegates to meet in smaller groups to discuss the legislation before them, as well as a chance to hear from each individual candidate for international office. The second General Session saw the election of **Michael Carroll**, Auburn '71, as "AA", **Larry Nothnagel**, Northeast Missouri '79, as "DD", and **Paul Bohlman**, Ohio State '70 as "CC". Revisions to Delta Chi Law dealing with firearms, the Housing Fund, Vice Regents, good standing at Convention, dues increases, financial indebtedness and the convention assessment, among others, were brought to the floor and discussed with many changes being made. In some cases lively debate ensued as the brothers represented their group's views on the proposed legislation.

The Convention recessed and many in attendance formed small groups to have din-

ner at local establishments, or to enjoy the ambiance beside the hotel pool. This free time was an opportunity for brothers to share ideas and to make new friends from all over North America.

Later that evening about thirty-two present and former staff members gathered for dinner to share stories from the road as well as about Iowa City.

Everyone reconvened that evening in coat and tie to participate in the Ritual Exemplification. Exemplifications are held at every Convention and Regional Conference to demonstrate exactly how the Ritual is to be performed. The importance of this event cannot be measured as it ensures that every *chapter perform* the Ritual identically as it is the one thing that binds us all together as brothers.

By 11:00 p.m. the first full day of Convention activities had come to a close and many members headed for the lobby bar or to local establishments where the bonds grew tighter and the friendships stronger. Some of these excursions lasted well into the wee hours of the morning.

Friday, August 7

Friday saw the beginning of the 1992 Senator Henry M. Jackson Leadership College. Members attended sessions designed to help them improve chapter operations, to learn about themselves and to provide a better fraternity experience for the other members of their own chapters. Some of the topics included Marketing Your Chapter for Success, Challenges and Choices, Risk Management and Managing Change. Brothers were

also treated to a wonderful program on Team Building and a thought-provoking session on cultural awareness.

At 11:30 a.m., Convention attendees gathered in the front of the hotel for the traditional convention photograph. After that it was time to relax and see some of what Southern California has to offer.

Many brothers were seen at Newport Beach, abusing their bodies as 8- to 10-foot waves crashed down on them. Many Delta Chis headed for Disneyland. Some went to the California Angels/Chicago White Sox game at the "BIG A" (Anaheim Stadium). Others simply lounged in the hot sun by the hotel pool. Many returned to the hotel for an afternoon social event featuring refreshments by the pool. The sunburned faces the next day proved that most everyone took full advantage of this free time.

Saturday, August 8

As the Convention entered its third full day, many of those in attendance had solidified friendships that will last a lifetime and will be renewed at future Conventions. Saturday morning and early afternoon was again filled with Jackson Leadership College sessions. Brothers were mesmerized as Eileen Stevens recounted the loss of her son, Chuck,

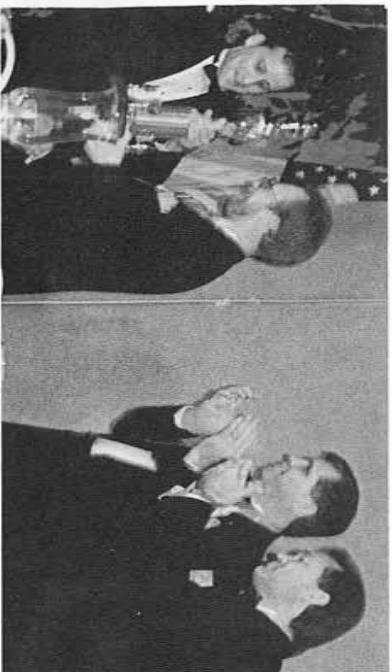

to a senseless hazing incident at Alfred University over 15 years ago. She told of the crusade she has undertaken to have anti-hazing laws passed, to educate young men and women to the dangers of hazing, and to espouse all of the positives of fraternity membership. She was given a standing ovation and the Fraternity made a \$500 donation to the organization Eileen founded called C.H.U.C.K. (Committee to Halt Useless College Killings). She was also presented with the first John J. Kuhn Award for outstanding service to the fraternity movement.

After lunch the brothers returned to an educational and extremely entertaining session on creativity presented by Barbie Tootle from The Ohio State University. Barbie's many props, upbeat style and wealth of experience challenged the men in attendance to open their minds and to not allow self-imposed constraints to hinder their goals. She made the attendees laugh (a lot!) and she made them think during this wonderful presentation. Barbie, a **Kevin Costner** fan, was then presented with a framed, autographed picture of Brother Costner.

Jackson Leadership College sessions continued that afternoon until about 5:15 p.m. Afternoon sessions included Building an Alumni Board of Trustees, Social Planning, Scholarship in the 90s, Committee Systems and many others. Brothers then retreated to

their rooms to don their formal attire for the evening festivities.

In what is often the highlight of any Convention, brothers in black tie apparel gathered in the ballroom for the reception and banquet. The banquet began with the singing of "O Canada" and the "Star Spangled Banner." Brother **Jimmie Underwood**, Kansas '51, gave the invocation and a wonderful steak dinner, highlighted by Caesar salad and a cheesecake dessert, satisfied the appetites of the attendees.

Herbert G. Klein, Southern California '40, gave an awe inspiring keynote address that was filled with anecdotes from his time in politics as press secretary for Richard Nixon and from his work in the newspaper field. The current Editor-in-Chief of the Copley Newspaper chain, Brother Klein told those in attendance of how much Delta Chi has meant to him over the years, and of the good-natured, interfraternal ribbings he and his Delta Chi friends often to give to their Sigma Chi buddies.

After the keynote address **Bruce B. Mohs**, SMU '55 stepped to the podium to present the Delta Chi of the Year Awards. The 1991 winner, much to his surprise, and the surprise of his wife Marjorie who was also in attendance, was Herbert G. Klein. Brother Klein, thinking he had been invited simply to give the keynote address was genuinely

moved by the award. The 1992 winner,

Edward A. Kangas, Kansas '66 and Managing Partner of Deloitte & Touche Accounting, then stepped to the podium to accept his award. In his inspirational speech he attributed much of his success to his involvement in Delta Chi.

Following the Delta Chi of the Year presentations, the major chapter awards were presented. The excitement level among the winning chapters was enormous, setting a standard for other chapters to emulate.

Another Convention tradition, the Handshake Across Time also took place this evening. **Joseph Lacchia**, NYU '25 and Michigan State, passed along a greeting from the Founders that started at the 1940 Convention. Apparently, **Monroe Marsh Sweetland** asked several members in attendance to pass along his greeting at future Conventions. Brother Lacchia started a handshake that reached all the way around the spacious ballroom. After a few closing remarks, the brothers formed the Chain of Brotherhood (so big it almost did not fit in the room) and sang the "Bond Song."

After the banquet, many pictures were taken and attendees went off to private parties or other social gatherings that lasted well into Sunday morning.

Sunday, August 9
The final day of this Convention started at

8:30 a.m. with the Awards Brunch. In addition to the distribution of all of the chapter programming awards, the brunch was a chance to thank all of the people who impacted the success of this event. A bouquet of flowers was given to Marge Lee, International Headquarters Office Manager, for her tireless work toward making this Convention the best it could be. Marge has been instrumental in many conventions, and it is hard to imagine being able to pull one off without her expertise and guidance. The new International Officers were then sworn in. Badge and neck ribbon sets to be worn by the wife of the "AA" and the wife of the retiring "AA" were presented at this time. The badges and ribbons were donated by Past "AA" **Raymond F. Borelli**, Illinois '58, in honor of the memory of his wife, Patricia "Ann" Borelli.

After brunch, members headed for the highways and for the airport and the hotel gradually grew quiet. The brothers who had attended this event took with them pleasant memories, a wealth of new friendships and a new understanding of the quote from **Billie Bride**, Georgetown '04: "If you have never been to a Delta Chi Convention, you have yet to have the time of your life."

Afterward we heard from you:

"...not only was the Convention very beautiful, it gave the opportunity to meet some new faces. I just had to let you know how grateful I am to have such a close association with an organization that gives me such joy whenever I think of it."

Scott Killings, Ball State '81

"My visit with Delta Chi was wonderful. The students were first rate, as was the hospitality you extended to me. The autographed Cosner photo simply overwhelmed me. I am the envy of many around here, and I love to tell them how I came to get the photo - a chance to brag about Delta Chi."

Barbie Tootle

"The [banquet] was filled with the spirit of celebration for the accomplishments of your chapters over the past year and a real sense of pride and brotherhood in the room. We will long remember our time with the Delta Chis."

Beth Saul, Southern California
Assistant Director of Greek Life

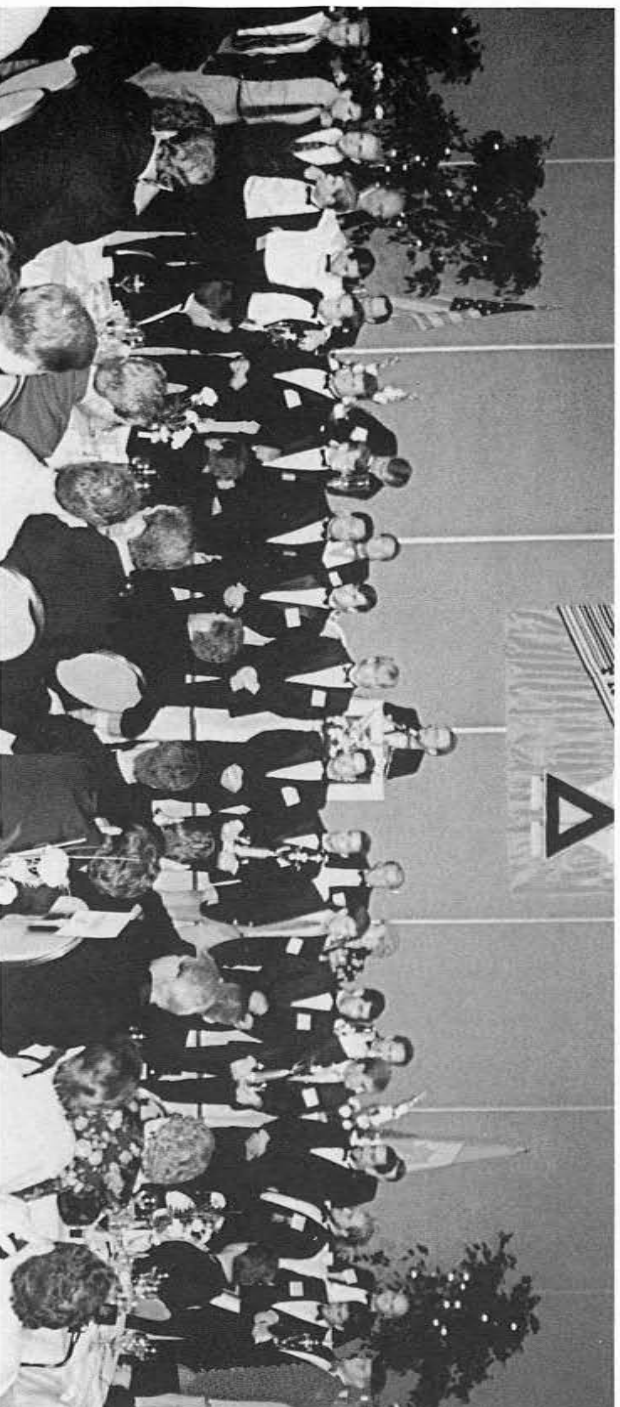

"I think the fraternity can be proud of its undergraduate members. The young men who attended the Convention demonstrated to the alumni, to the hotel staff and to the general public the high principles on which the Fraternity was founded. I am proud of my fraternity. I consider it an honor and a privilege to be a brother in the Bond of Delta Chi."

Stephen Henson, Louisiana Tech

"In my job I attend many conventions, and this was the best convention I have had the pleasure to participate in. I do not plan to miss another one."

Ken Young, Auburn "BB"

#Chapter with over 100% reduced a debt from previous years.

We continue to grow . . . PROGRESS

This past year has seen Delta Chi improve in many areas. In the area of expansion Delta Chi established three colonies: Memphis State University, North Texas State University, Old Dominion University and Rowan College. The Edinboro, Elmhurst, Fredonia, Mankato, Reno, Virginia Commonwealth and Virginia Tech were chartered. Unfortunately, with the growth came some losses as the Buffalo and New Hampshire Chapters voted to close themselves.

While the Fraternity intends to continue expansion efforts we have also been working hard in the area of chapter services and standards. The "industry" norm is one 3-day visit per chapter per school year; Delta Chi visited every chapter and colony once and approximately 80% received at least a second visit. Several groups received extended visits of 5 or more days. **Paul Picclani**, Conn '89, working as Director of Fraternal Standards, did several special and extended visits and three reorganizations (Buffalo, Penn State and New Hampshire). At those reorganizations, the entire membership of each chapter was inactivated and interviews were held to determine who would be invited back. The Buffalo and New Hampshire Chapters eventually closed due to a combination of low membership, financial difficulties and risk management problems. The Penn State Chapter has benefited from the reorganization: membership is up 30%, accounts receivable is down about 75%; there is compliance with the Risk Management Policy; and the Alumni Board of Trustees has been restructured and is involved with chapter operations. Lately, Paul has been concentrating his efforts on chapters and colonies that have fallen below Delta Chi's minimum standards in hopes of the extra attention having a positive effect.

Michael Geary, Florida '91, rejoined the staff in January as Director of Services and is responsible for the development of the Fraternity's educational programs and publications as well as general chapter and alumni services.

In addition to Mike, Paul, and **Steve Bossart**, Director of New Chapter Development, we now have four Leadership Consultants: **Pat Alderdice**, Ball State '92; **Chris Brockmeier**, Northwest Mis-

souri '92, **Wade Hatfield**, Ball State '92; and **Scott Leigh**, Southwest Missouri '89, who is completing his second full year of traveling. This is Delta Chi's largest professional staff ever. Two main factors, expansion and the willingness of our chapters and colonies to vote for the necessary dues increases, have made this possible. The effect of the larger staff is evident with the progress chapters and colonies have made in improving general chapter operations and adherence to risk management and other standards.

Delta Chi's written programming is recognized by many as among the best in the fraternity world. This past year the International Headquarters published new Alumni Board of Trustees, Chapter Management and "C" Manual **BRIEFs**. Furthermore, a revised Risk Management Manual has been distributed to chapter/colony "F"s. It covers a wide range of topics including crisis management, house safety, event planning and educational programs. Currently, the Alumni Newsletter and Chapter Retreat **BRIEFs** are being revised and new Alumni Relations and Financial Management **BRIEFs** should be available early next spring.

Several groups have felt that all they get from the Fraternity is rules about things they can't do and not enough ideas about how to have fun. In response to that, the International Headquarters also published a booklet with over 70 party and other event ideas. The booklet was distributed at the Convention.

RISK MANAGEMENT

Ask any undergraduate member about the words he hears most often associated with fraternities today and he will probably answer "risk management." Those are two words that the officers and staff of the Fraternity constantly remind the members about on a regular basis. While brotherhood, values and sound financial management are still concerns, risk management seems to be one of the largest current issues. Delta Chi has not been free of losses by claims against the liability insurance and has been named in a couple of lawsuits during this past year. Fortunately, at the time of this printing, no judgments have been made against the Fraternity.

Delta Chi takes a strong stance with the chapters and colonies regarding ad-

herence to Delta Chi's Risk Management Policy (FIPG) and hazing statutes. Unfortunately, several groups continue to refuse to comply with the standards and jeopardize Delta Chi's reputation and existence. This past year saw several groups being placed on probation for violation of the Risk Management Policy. Among them, the Florida Chapter, one of Delta Chi's largest and oldest chapters, has been suspended until 1994 due to hazing. The Board of Regents has permitted them to continue to operate but their activities are closely monitored. Despite the tremendous amount of resources available from the International Headquarters and institutions, and despite state laws and constant reminders from the staff and officers, hazing is still occurring in Delta Chi. It seems that 18- to 21-year-olds cannot comprehend that actions don't have to result in death to be considered be hazing. While some claim a lack of guidance on the topic, they seem to know exactly what to try to hide from visiting staff members, and what not to tell their parents and potential associate members. The Board of Regents has adopted a zero tolerance for hazing and insists on swift and severe sanctions on chapters who continue to haze.

HOUSING FUND

As of June 30, 1992, the Housing Fund stood at \$1,307,441 with \$1,110,715 out in loans to 29 chapters. This past fiscal year resulted in a \$78,043 increase in the fund. Since the Mississippi State Chapter received the first loan of \$5,000 in 1964, the Fund has loaned over \$2 million dollars.

The purpose of this fund is not to replace the banking industry but to provide seed money and to help with down payments that will enable the chapters to obtain primary loans from local financial institutions. In some cases, however, it is the only source of financing available. It was started in 1964 and has been primarily financed through a "head tax" that was self-imposed by the chapters at Convention. The rest of the increase in the fund is from interest on the outstanding loans to our chapters and their respective house corporations. Because so many of our groups have been started or restarted in the last 12 years (70 of 125) and so many of the established chapters have houses built in the 1920s or earlier, more is needed but our undergraduate

members can only afford to pay so much into the fund.

FINANCE

The budget for 1991-92 was \$1,007,500, including liability insurance. Net income was \$966,985 and expenses were \$969,500, resulting in a \$2,515 deficit for the year. This is mainly a result of a slight decrease in associate members and initiations. Accounts receivable increased from \$69,918 for 1990-91 to \$84,005 for this past fiscal year.

The 1992-93 fiscal year budget has been slightly increased to \$1,073,200. This is due to the chapters realizing the need for an increase in the dues that Delta Chi must charge to finance the services they deserve. At the Convention, the chapters and colonies voted to raise the associate member dues from \$50 to \$55, the initiation dues from \$125 to \$135, the Fall and Spring membership dues from \$25 to \$30 and the convention assessment from \$300/year to \$500/year. This will enable Delta Chi to increase its staff, keep pace with inflation, and provide increased services to our groups and members.

1991-92 Award Winners

The Delta Chi Awards Program is designed to recognize and promote those areas that are critical to the success of a chapter. The oldest award, the "E" Key, and the Outstanding "C" Award recognize the performance of two vital chapter officers.

In recognition of a chapter's performance on campus and within the community, the Outstanding Campus Leadership, Outstanding Community Service, Outstanding Intramural Program, Outstanding Membership Recruitment Program, and Outstanding Scholarship Program Awards are presented.

Three awards address the alumni program of a chapter: the Outstanding Alumni Board of Trustees, Outstanding Alumni Newsletter and Outstanding "BB" Awards.

Chapters that have shown a marked improvement in their overall operations are

given the Certificate of Achievement. The "AA" selects the winner of the Most Improved Chapter from the recipients of this award.

For the Award of Excellence, the Fraternity is divided into two divisions: Red and Buff. The Red Division contains those chapters with 19 or more fraternities on their campus or whose Greek system has over 40% of the undergraduate student body. The remaining chapters make up the Buff Division. The winners of the Award of Excellence show strength across the board. In most cases they are winners of several programming awards. When they are not, they show consistently above average performance in all areas with no area of weakness.

From the recipients of the Award of Excellence, the "AA" selects the President's Cup winners. There is a maximum of three Cups in each Division but no minimum.

FIRST YEAR FOR JOHN J. KUHN AWARD

The John J. Kuhn Award for Service to the Fraternity Movement was created this summer by the Board of Regents to recognize individuals who have dedicated their lives to the fraternity community. Brother Kuhn, Cornell '99 (1877-1958) was “AA” in 1906 and again from 1917-1921, Chairman of the National Interfraternity Conference in 1923 and was a Founder of the National Interfraternity Foundation.

The first recipient was Eileen Stevens, Founder of C.H.U.C.K. (Committee to Halt Useless College Killings). Mrs. Stevens was presented the Award by Retiring “AA” Greg Hauser at the Convention along with a \$500

contribution to her organization. Her son, Chuck, was killed during an alcohol-related hazing incident. She is nationally recognized for her work with college students to prevent hazing and has appeared at numerous fraternity conventions and on national talk shows.

Brother Kuhn was a tremendous supporter of Delta Chi and of the fraternity movement. We are proud to share his name with Eileen Stevens, the award's first recipient.

The story behind the awards

Is the application really all that matters? What about Brotherhood?

The annual awards application requires a chapter to describe itself in terms of objective facts, for example, the number and kind of alumni events and the number of alumni who attend, or the chapter's GPA and a description of its scholarship program and activities. The application has also long included an opportunity for the submitting chapter to offer a supporting narrative.

This is specifically designed to allow a chapter to offer its own subjective view of why it deserves the awards for which it is applying. The narratives almost always praise the chapter's brotherhood and often bemoan the application's supposed inability to measure the chapter's true character.

A narrative submitted in 1992 on behalf of one of Delta Chi's better chapters was an ultimate example of such a submission, and it sparked a response by the "AA". We reprint the two letters here, edited to remove any evidence of the chapter's identity.

First, the statement from the chapter

(Note: Although the statement was written in the first person and signed by the chapter "A", it was in fact read at a chapter meeting and endorsed by the chapter members.)

To whom it may concern:

The reason our chapter is going at the Awards application in a different way is because we feel a change is necessary. As "A", I have looked at the application and all the sections it includes. Our chapter is not being lazy or rebellious by any means approaching the application in this manner. I realize, as well as the chapter, that changing the application is not permitted and subject to return. We are not as much concerned with winning awards as we our (sic) with helping our fellow brothers of Delta Chi. We feel that there is something wrong when a chapter is judged by the appearance of an application. I realize the application is not the only thing looked at, but I have been given the impression that it is a major part.

I really have a difficult time understanding how a chapter can be judged by National (sic) when the correspondence between the two

is hardly existent. I am fully aware that the "AA" decides the winner of Presidents Cup (sic). It is difficult for our chapter to comprehend how we can be judged when he has not even seen the brotherhood that exists. I feel that our founding fathers would not have wanted it this way. As we are all aware of what the Preamble states, the brothers of the "Northsouth State" Chapter believe that brotherhood is the most important aspect of being a Delta Chi. We have showed (sic) this in many different aspects of our college career. . . . Our brotherhood by a substantial margin is the top in the nation. We have worked incredibly hard for this and feel that we should be recognized for our accomplishments.

... I realize that it is very difficult choosing the best chapter in the nation, but I just want to reiterate how important it is to judge a chapter on the brothers, rather than the appearance of the application. I realize we have not fulfilled many of the requirements on the application, but this was done for a reason. Our chapter has fulfilled the Basic Expectations that the Board of Regents adopted and a lot more that needs to be considered.

... Thank you for your time and consideration.

And the response from the "AA"

Dear Brother:

I have just finished reviewing the awards applications for my decision on the President's Cups and the Most Improved Chapter awards. This is my seventh year of reviewing them and my second year of actually making the final decision after the staff and the other officers have offered their views. I thought this might be a good occasion to add my response to your letter.

Gregory Hauser
1990-92 "AA"

To begin with, let me emphasize that the Fraternity is most times very proud of your chapter. There are occasional down years and occasional incidents that have not done your chapter or the Fraternity proud, but on the whole your chapter is clearly a quality experience.

Please bear in mind what I have just said as I respond further to your letter, because you may not have a good reaction to some of what I write.

First, an application's appearance has almost nothing to do with the decision, apart from glaring defects that suggest the chapter simply doesn't care. Attention to detail and image are in fact hallmarks of a truly excellent chapter, but the substance of success must both precede and supersede these.

Second, if the correspondence between a chapter and the Fraternity is "hardly existent," the officers are not doing their jobs, and this will properly be a mark against you.

There is a deep irony in your letter. You suggest that I am unable to judge your brotherhood, but you believe that you can state that it is 'the best in the nation.' (Does this mean that you admit the superiority of the Canadian chapters?) This claim would of necessity mean that you are able to judge the brotherhood of every other chapter and that you have decided that they do not measure up to yours. In New York, we call that *chutzpah*. How many of the 130 campuses of Delta Chi have you visited?

I have visited over 90 of our chapters and colonies during the last 18 years. It is a rare group that does not believe it has a great brotherhood—and that is how it should be. But can one chapter's brotherhood be 'better' than another's?

... Sometimes when men proclaim that they have the best brotherhood, what they really mean is that they like their chapter's personality better than that of others. Again, I hope that is true, because it is evidence that they chose their fraternity well. But that does not mean that

they are necessarily any closer among themselves than the brothers of another chapter are. It just means that for any number of perfectly good reasons, they could not be as close with the brothers of another chapter as they are with their own brothers, just as they could not be as close with the members of another fraternity on their own campus. It is for that reason that there is more than one fraternity, and it is generally a matter of personality, not relative quality of brotherhood.

Sometimes when a man proclaims that his chapter has the best brotherhood, what he really means, unfortunately, is that he doesn't like the kind of guys in other chapters, perhaps because they take athletics less seriously or more seriously than his chapter does, or because they spend too much time studying (this means he's envious of their grades), or, even worse, because they aren't as good looking or socially adept or scholastically able, or worst yet, because they don't come from the same kinds of neighborhoods. When a man means any of these, it indicates he has absolutely no concept of brotherhood and has a seriously defective character (another keystone of the Preamble that you didn't mention).

I have heard your claim and complaint from members of many different chapters I can only smile, shake my head, and know that they can't mean what they're saying quite the way they're saying it, or if they do, they don't know what they're talking about.

Your claim is that 'We have the best brotherhood,' and your complaint is that 'this awards application can't show it and you should just tell us we're the best.' Sometimes, I think our awards application should consist simply of the following questions, which would usually be answered as follows:

Q. What is the most important aspect of a fraternity chapter?

A. *Brotherhood.*

Q. If you didn't say brotherhood, forget it; if you got it right, rate your chapter's brotherhood on a scale of 1 to 10.

A. *10.*

Q. Does the brotherhood of any other chapter in your Region come close to yours?

A. *No way, dude.*

Q. Of any of our other chapters?

A. *No way, and forget about the colonies entirely.*

Q. How about any of the other fraternities on your campus?

A. *You've got to be kidding, bro'.*

Q. How do you know?

A. *Because everybody tells us we're the greatest on this campus, or at least we always tell ourselves that, and so do most of our girlfriends, one young alumnus and his professor friend who like to get drunk at our parties and chase sorority women, and two guys from the fraternity down the street who wished they had joined us. Forget our two brothers who went inactive and prefer to hang out with the fraternity across the street, because they never really fit in anyway. Also, the other chapters in our Region just don't match our image, so we know we've got better brotherhood than they do. We like ourselves so much, we just know no one else could like themselves nearly as much as we do.*

I know that this is very sarcastic and perhaps you've even insulted at this point. But I have to tell you, if any other chapter in the Fraternity were to read your statement about the superiority of your chapter's brotherhood, they would be insulted, and rightfully so. Go back to

We are called a social fraternity because we prepare our members for society

your statement and re-read it, imagining that you're from another chapter or that you're reading the identical statement from the "A" of some other chapter.

What is your honest reaction?

I am sure that you are intensely proud of your chapter and that you care for your brothers as much or more than your own family. But pride and brotherhood are only two of many, many aspects of a fraternity chapter that are important.

I once heard an officer from another chapter say he joined Delta Chi to get away from his classes and relax with friends, in other words, the point of the chapter was to provide an escape. If that is truly his chapter's purpose, although the members could still enjoy great "brotherhood" if everyone is there for the same reason, his chapter is a total failure in Delta Chi's book. In fact, I often find that the more a chapter talks about brotherhood, the more the brothers are really just avoiding their own suspicions that they aren't doing very well at achieving the other purposes of a fraternity.

Professional fraternities exist to help their members prepare for a profession. We are called social fraternities not just because we have social events, but because we have taken on the much broader task of helping our members prepare for the larger society, that is, for life. We are supposed to be the complete opposite of an escape. We are supposed to be the means for our members to be involved in and to learn about those things that it takes to be a contributing member of society but that one can't learn in the classroom. Things like:

- teamwork, organization and leadership, and the difference among them;
- the virtue of genuine respect for the individual worth and dignity of others (learned from both how others treat you and the results of how you treat others);
- the ability to meet commitments made to other people, to be willing to account for your failure to do so and to take the consequence, and to ask that others do the same for their own good as well as the group's (this is essential for brotherhood, because real brotherhood can only flower where it is rooted in the ability to trust your brothers and the commitments they make, and I include personal, emotional, financial, and all other kinds of commitments);
- realizing that there is a value to taking on challenges even if you fail, a value that comes from the lessons you learn whether or not you succeed, and the ability to be both gracious in success and supportive of another when he stumbles;
- the value of having a good academic record to show after you've spent four (or more) years and untold thousands of dollars so that prospective employers won't conclude you're one who wastes your opportunities;
- the critical importance of community service;
- the continuing role that your families can play in your lives even though you're becoming independent;

(Awards, continued from page 19)

- the useful things you can learn from those who have gone before you (advisors and other alumni) about what it takes to make your way in the world;

- the merits of having good relations with others, whether alumni, neighbors, faculty, staff, parents, other Greeks, other students and their organizations, the international Fraternity, or local authorities;

- and much, much more.

The core conviction of the awards program is that real brotherhood will manifest itself in visible success in these endeavors. What the application measures (or tries to measure) is the extent to which your chapter is having that success. One reason some chapters prefer to boast of their brotherhood is that it can't really be measured, so no one can actually dispute the boast, and it is an attempt to avoid the discomfort that results when concrete measures of success are lacking. If you can't measure up in the areas above, but you think you have great brotherhood, I have my doubts about whether you're right, but even if you are, at most what you have is icing without the cake.

In closing, I want to repeat: most years you guys at the "Northsouth State" Chapter bake a terrific cake. But please don't task us to judge it just by the icing, and please remember that nobody's favorite flavor of icing can be the "best."

Editor's note: The award program was established by the Board of Regents and is administered by the International Headquarters. The awards applications are first considered by the Fraternity's staff, and the reports by those who have visited the chapter are considered as well as the applications themselves. After the staff determines all the chapter awards except Most Improved and the President's Cups, the applications of those chapters that have won the Award of Excellence or the Certificate of Achievement are forwarded to the Executive Committee, and the staff submits its views directly to the "AA". After the "CC" and "DD" have both reviewed the applications and communicated their views to the "AA" and he makes any additional inquiries he believes necessary, the "AA" makes the final decisions, choosing a single Most Improved Chapter from among the Certificate of Achievement winners and up to a set number (depending on the number of active chapters) of President's Cups, with at least one winner in each of the Red and Buff Divisions.

The International Headquarters welcomes suggestions for improvements in the awards application.

Farewell & Parting

These men have lived amongst us for a time, and we have been honored to call them Brothers. Now they are gone and we bid them a fond farewell at this parting.
